Technology: PHP, MySQL, JavaScript, Bootstrap
GitHub Repo
Overview: Developed a platform for patients to book appointments online and for doctors to conduct virtual visits.
- Real-time messaging and online prescription system for doctors.
- Added doctor visit scheduling and optimized for secure data management.

Course Improvement Management System
Technology: Laravel, MySQL, JavaScript, Bootstrap
GitHub Repo
Overview: Automated feedback collection and built an admin interface for course evaluation metrics.
- Boosted efficiency by 20% and improved course feedback analysis.

CircleHub - Social Media Platform
Technology: Laravel, MySQL, Tailwind CSS
GitHub Repo
Overview: Built a platform for user posts, messaging, and profiles with secure authentication.
- Implemented user profiles, secure login, and messaging features.

Education

Jatiya Kabi Kazi Nazrul Islam University
BSc in Computer Science and Engineering
Feb 2020 - Jan 2025
Location: Mymensingh, Dhaka, Bangladesh

Coursework

- Object Oriented Programming
- Data Structures and Algorithms
- Machine Learning
- Web Development
- Database
- Software Design and Analysis
- Network Security
- Networking
- Computer Architecture

Certifications

- Data Structures and Algorithms - Coursera
- Machine Learning Basics - Kaggle

Interests

Travelling, Fitness
